STATEMENT OF INVENTOR MALCOLM S. CHILD

Sir:

I, Malcolm S. Child a citizen of the United States of America residing at 163 Oldfields Road, South Berwick, ME 03908 hereby declare:

1. That I, as a joint inventor, made and conceived the invention described and claimed in Patent Application Serial Number 10/730,155 filed in the United States of America on December 8, 2003 and titled "NOZZLE BOLTING ARRANGEMENT FOR A TURBINE".
2. That I, as a joint inventor, made and conceived this invention while employed by Ingersoll-Rand Energy Systems Corporation. That the invention is related to the work I am employed to perform and was within the scope of my employment duties; that the invention was made during working hours and with the use of facilities, equipment, materials, funds, information, and services of Ingersoll-Rand Energy Systems Corporation.
3. That to the best of my knowledge and belief the invention was not made or conceived in the course of, or in connection with, or under the terms of any contract, subcontract or arrangement entered into with or for the benefit of the United States Atomic Energy Commission or its successors: Energy Research and Development Administration or the Department of Energy.
4. That to the best of my knowledge and belief the invention was not made (conceived or first actually reduced to practice) under, nor is there any relationship of the invention to the performance of any work under any contract of the National Aeronautics and Space Administration.

I hereby swear that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under §1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
